ABOUT US

SAI GROUP

Each significant journey begins with a single step. We made that decision in 2020, and with unrelenting effort and commitment, we have since reached new heights of workplace excellence. The trip has only just begun for us. We provide contract employment, and facility management services. We have built a strong company foundation since our founding in 2020 by our unwavering commitment to providing top-notch solutions. In the field of facility management, SCFM Services Private Limited is now a household name and well-respected. Our team's dedication and our clients' generosity are both responsible for our modest success, and we now to continue producing high-caliber work in the future.

OUR VALUES

PROACTIVE

In order to continually be one step ahead of the competition, we don't hesitate to take the less-trodden path using technology and innovative business models.

HONEST

Putting goodwill above all else, we make an effort to fulfil our commitments and maintain fairness and transparency in all of our interactions with stakeholders.

DEVELOPING RELATIONSHIP

We strive to create respectful partnerships and collaborations that enhance each interaction and serve to fortify all of our relationships.

Why are we different?

"We set out with a clear goal in mind to improve the facilities management sector's operations and perception. This vision served as our guide as we created specialized systems and procedures to meet the unique needs of our clients. We develop solutions that are tailored to their needs after conducting in-depth research and learning everything there is to know about their companies. Our move from a supporting role to a strategic partner has enabled us to work with clients, resulting in cost savings and increasing their total profitability. In essence, our differentiating element may be captured in one statement"

INTEGRATED FACILITY MANAGEMENT

We are a cutting-edge integrated facilities management company that prioritizes technology-driven solutions. Our comprehensive range of services encompasses various responsibilities, including staffing, payroll, production support services, and vendor management.

Enhancing workplace productivity and resilience Through the seamless integration of critical functions and advanced technologies, we provide our clients with a systematic service delivery model that promotes business agility. Our state-of-the-art facilities management systems and platforms are meticulously crafted to align with your objectives while ensuring unwavering service levels and optimal operational efficiency.

HYGIENE & SOFT SERVICES

Pantry Services

In addition to our emphasis on hygiene and presentation, we diligently track and manage stock levels to guarantee a seamless flow of pantry supplies. By regularly conducting stock taking, we can proactively address any potential shortages or issues, ensuring your employees and guests never encounter any inconvenience.

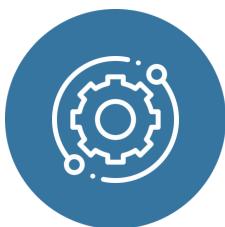

Housekeeping and Soft Services

At SAI GROUP, we take pride in our commitment to excellence, sustainability, and the well-being of our clients and employees. With a team of highly trained professionals, we have cultivated an efficient and environmentally conscious approach that consistently surpasses client expectations.

Our dedicated staff is not only highly trained but also equipped with the latest eco-friendly products. We believe in minimizing our ecological footprint while delivering outstanding results. By adopting industry best practices, we ensure that every project we undertake aligns with our mission to protect the environment.

Horticulture Services

We understand the importance of maintaining a beautiful and captivating outdoor environment for your organization. Sai Group offers comprehensive housekeeping services that also include horticulture maintenance. Whether it's watering your garden or trimming overgrown grass, our skilled workers excel at meeting all your horticultural needs. We have a proven track record and would be delighted to provide the same exceptional service to you.

TECHNICAL SOLUTIONS

Electro-Mechanical Services & Building Repairs

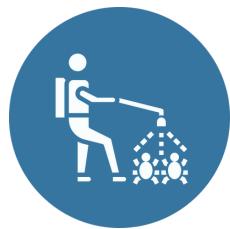

Our highly skilled maintenance professionals specialize in a wide range of services, ensuring that your capital assets and facilities operate at their best. From comprehensive facility maintenance to MEP (Mechanical, Electrical, Plumbing) systems management, we handle the day-to-day tasks necessary for optimal performance.

Our services include:

- Building Management Systems (BMS) Operation
- HVAC (Heating, Ventilation, and Air Conditioning) Operations and Maintenance
- Electrical Operations and Maintenance
- Plumbing Services
- Carpentry Work
- STP (Sewage Treatment Plant) / WTP (Water Treatment Plant) Maintenance
- Repairs and Maintenance

Maintenance Services & Command Centre

Our clients can rely on us for ensuring uninterrupted operation of their vital assets, thanks to our unwavering commitment to maintenance protocols in various high-stakes environments such as data centers, laboratories, hospitals, and other mission-critical facilities. The key to our exceptional service lies in our deep understanding of the critical nature of our clients' infrastructure, the intricate configuration of the equipment and systems that support it, and the need for immediate resources to address any emergencies that may arise. We have established robust infrastructure and assembled a skilled team capable of delivering and supporting the precise services our clients require.

PEST MANAGEMNT SERVICES

Welcome to our comprehensive pest control services! We take pride in safeguarding your premises, products, and goods while ensuring they adhere to the highest quality, health, and safety standards. Our pest control solutions are designed to help you meet strict local and international regulations and standards effectively.

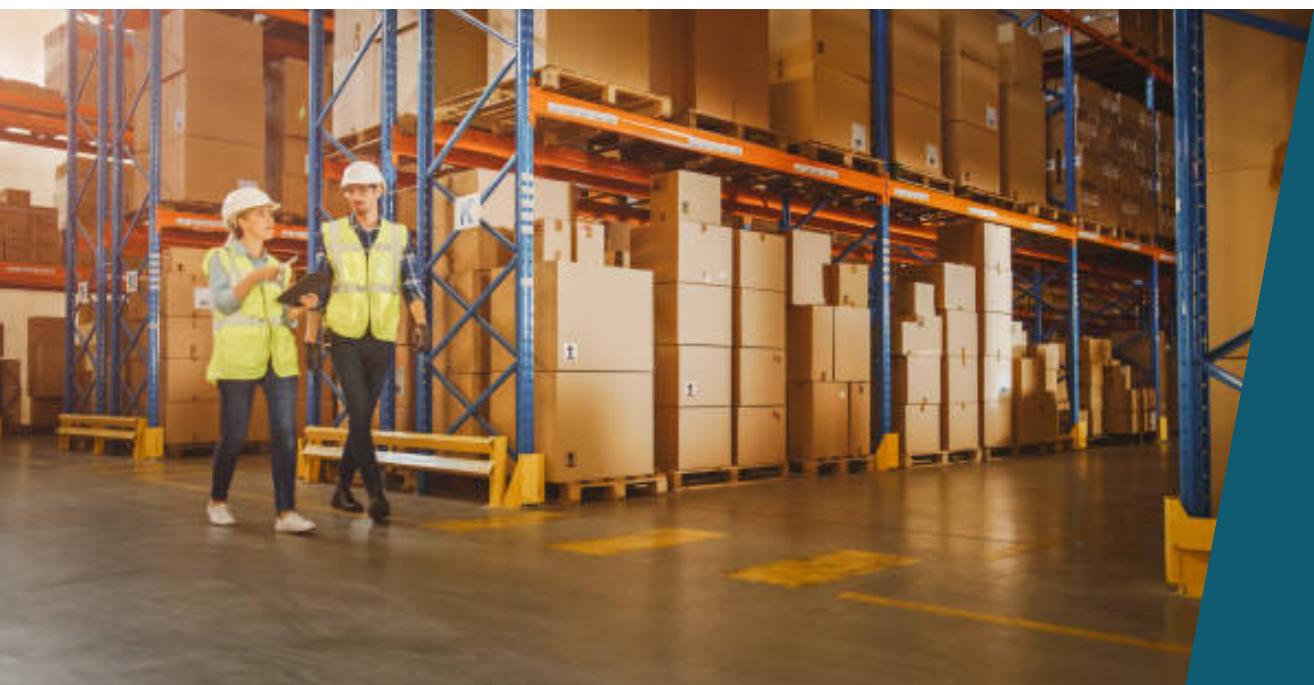

- General Disinfestation Services
- Cockroach, Rodent, Mosquito and Bird Management
- Termite and Wood Borer Management
- Bedbug Treatment

“ To ensure the seamless operation of your everyday production services, it is essential to have comprehensive support in place. ”

PRODUCTION SUPPORT SERVICES

At our company, we specialize in providing skilled manpower for production support, enabling you to maintain smooth day-to-day operations. As part of our comprehensive services, we have successfully supported numerous prominent auto manufacturers, FMCG companies, and optic fiber companies with our dedicated production support staff. By supplying competent personnel and fostering effective teamwork, we have played a pivotal role in helping these companies meet and surpass their production targets, setting exceptional benchmarks in the industry.

Our support service staff will help in the following ways:

- ✓ Loading and Unloading
- ✓ Packaging
- ✓ Process line manpower
- ✓ Machine operators
- ✓ Warehouse management

SPECIALIZED SERVICES

Office deep cleaning

Office deep cleaning is a comprehensive and thorough cleaning process that goes beyond regular daily or weekly maintenance. It involves meticulous cleaning of all areas and surfaces within the office space to create a clean, sanitized, and healthy working environment. This type of cleaning is typically carried out periodically, such as quarterly or annually, to ensure the office remains in optimal condition.

Façade cleaning

Enhance the appearance of your building with our professional façade and glass cleaning services. We specialize in cleaning windows, glass facades, cladding, and other architectural features. Our thorough approach ensures a streak-free shine and improves the overall aesthetics of your building.

Carpet cleaning

We offer top-quality carpet cleaning solutions that will restore the beauty and freshness of your carpets, making them look as good as new. Our team of experienced and skilled carpet cleaners uses advanced techniques and state-of-the-art equipment to deep clean your carpets effectively. We tailor our cleaning methods to suit the specific needs of your carpets, ensuring the best results.

Marble & stone care

At SAI GROUP we specialize in providing top-quality marble cleaning services tailored to meet your specific needs. Our team of experienced technicians utilizes advanced techniques and state-of-the-art equipment to effectively clean and rejuvenate your marble surfaces. Whether it's marble floors, countertops, vanities, or any other marble installations, we have the expertise to handle them all.

Upholstery & sofa cleaning

At SAI GROUP, we excel in providing premium upholstery solutions tailored to meet the specific needs of direct-to-consumer businesses, such as malls, theatres, and restaurants. Our expertise lies in offering highly sought-after upholstery services that complement our deep cleaning and premium cleaning solutions. Whether you require fabric, leather, or synthetic fiber upholstery, we've got you covered, making it perfect for furnishing and décor in corporate establishments..

Sanitization services

Ensuring a clean and spotless environment is only the first step. Beyond that, it's crucial to guarantee that the people who inhabit these spaces can work in a safe and healthy environment that fosters overall well-being. At our company, we go above and beyond mere cleaning tasks. We are dedicated to providing specialized services such as office sanitization and thorough floor cleaning and disinfection. Drawing on our extensive industry experience and the invaluable lessons we've acquired from delivering effective hygiene solutions during the pandemic, we are committed to creating safe workspaces that instill confidence in everyone who uses them. Our team is driven by the belief that a clean and hygienic environment is essential for productivity, creativity, and overall satisfaction at work.

Home deep cleaning

Our Professional Home deep cleaning services are designed to transform your living space into a sparkling and fresh environment, giving you the peace of mind and comfort you deserve. To deliver the best results, we utilize top-of-the-line cleaning equipment and tools. Our high-powered vacuums, steam cleaners, and microfiber cloths ensure that dirt, grime, and allergens are eradicated, providing a noticeable difference in air quality and overall cleanliness.

Kitchen exhaust cleaning

In the fast-paced world of commercial kitchens, every second counts, and safety is of paramount importance. However, the hustle and bustle can lead to the accumulation of grease and debris inside exhaust pipes and ventilation systems, posing a significant risk of fire and hazardous smoke. We understand the critical role these spaces play in your business, and that's why we are here to help. At SAI GROUP, we offer a high-functioning and efficient Commercial Kitchen Exhaust Cleaning Service. Our team of highly trained technicians is dedicated to ensuring the utmost safety and functionality of your kitchen. By availing of our expert service, you can eliminate the risk of kitchen fires and dangerous smoke entirely.
